fin O international

OUR MISSION

Fino International Chairman and Managing Partner Mr. Ahmad Abdulla Al Shafar and Mr. Talal Saeed have a long term mission to develop standard turnkey solutions and to introduce the latest and most advanced techniques in the fit-out and furnishings field, starting with the idea of adopting a new concept in fit-out and interior decoration based on turnkey solution .

To enhance the interior and fit-out industry by defining and providing all possible solutions and expertise to projects.

To provide our employees with all support necessary to bring out in them the strongest team possible and to their fullest potential.

Fino's mission is to exceed a Customer's expectations by delivering the highest quality products and services available.

HISTORY

fino intern

Fino International established in Dubai, UAE, in 2006 by leading Industry Professionals for the Hospitality, Fit-out, Joinery and Furniture Manufacturing Sector (FF&E).

The Founders of this High End Finishing Fit-out Contracting & Manufacturing Business are Mr. Ahmad Abdallah Al Shafar and Mr. Talal Saeed. Both of these Entrepreneurial Businessman has established within the International Market successful multiple businesses that reflects on their ability to develop and lead fino International in becoming a market leaders and the first choice of the Clients and Consultant for the Interiors Industry.

Within the group fino International operates under the name of Al-Merkas Industries, Al-Merkaz Marble, Al-Merkaz Contracting, fino International Qatar, GSG Industries and fino International Abu Dhabi.

Our group of companies operates as standalone businesses which serve the industry both individually and collectively providing each Client an efficient streamlined solution to the Project requirements and provides a Turnkey Solution to achieving Clients goal. This unique in-house solution brings together the design development engineering, professionals, management, manufacturing and project execution to meet the needs of our clients Interiors Fit-out Projects.

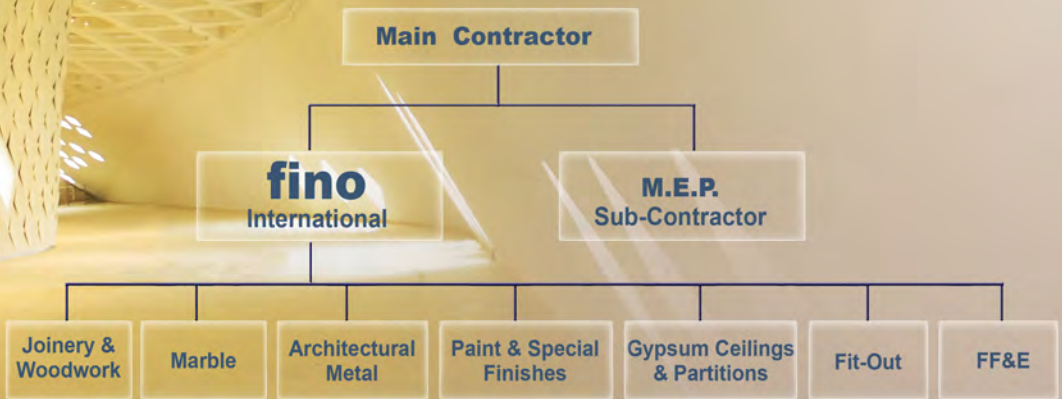

Our flexibility is in our diverse and talented staff combined with a multi skilled work force which can undertake the complexities in any size projects.

CONCEPT

The philosophy of fino International is to provide enhanced transparency in the development and execution of the Projects through sharing our expertise in all aspect of Communication, Co-ordination, Detailed Design, Engineering, Manufacturing and Execution Solution. This in turn encourages the free interchange of ideas to motivate the complete team of professional to act as one unit to provide the client's the best possible solution and execution of their Project.

The result is a key development of expertise which provides our clients with a focused team acting in the best interest of the clients and develops long lasting trust and stronger business relationship.

DESIGN AND BUILD ETHOS

The ethos of fino International in its approach to servicing the unique challenges faced on each project is based on providing a turnkey coordinated solution. Our in-house team offers each client a streamlined approach to design development/engineering, through manufacturing and execution. We aim to encompass and co-ordinate all aspect of the process within our facilities to surpass our client goals and expectations.

COMMITMENT

The commitment of fino International is to provide the highest quality of service and products for every element on each Project. In providing the highest standard for the project our commitment will be reflected in the finished product and thus exceed over clients goal.

COMPANY STRUCTURE

Manufacturing Facilities

Marble Factory
Joinery Factory
Metal Factory
Soft Furnishing Factory

Engineering Department

A full technical and engineering department capable of design development and preparation of shop drawings, cutting lists, presentation and specifications to a project requirement. Our team begins with client requirements which will be analysed in the design department for proper presentation and follow-up to the next stage of Engineering.

Design Department

Our aim is to efficiently provide the clients with all necessary drawings and documents of their projects, and to meet their deadline. Our professional design team uses the latest technology software programs for perspectives, 3D views and walkthrough animations.

Estimation & Procurement Department

The complete job presentation is handed over for estimation to prepare a complete B.O.Q. , which will be then submitted to the management for approval, subsequently a complete list will be submitted to the client, B.O.Q and a program of execution of the works.

Commercial Department

The Contracts Department handles all contractual aspects of the project from signing of the contract to receiving the completion certificate, including interim payments, project manager supervision and follow up .

Projects & Construction Department

A Project Manager will be allocated to each project, where a detailed orientation and briefing will be given to all concerned.
